# Discover Some Tunisian Drift Machines!

In Tunisia, a lot of people still don't know about motorsport and think that drifting is a dangerous behavior done by irresponsible kids. The cars community in Tunisia has known a great development during the last four years. The FTA has played a major role in organizing the disciplines. We find different kind of competitions such as Karting, Tunisia challenge(Racing), Rally and our main topic which is Drifting. This website shows some samples of pro drift cars. Drift is not about making chaos and scaring people in the streets, it's a sport!
